## SHOWDOWN ON THE ARMS PROGRAM DELAYED

### LAUDERDALE MEN HERE TO ASSIST IN FARM BUREAU FOR MORGAN COUNTY

A. H. Moore and John Finley  
Helping the Membership  
Campaign

### BENEFITS DECLARED TO BE GREAT BY FINLEY

Meetings Held in Many Com-  
munities With the Inter-  
est Increasing

A. H. Moore and John Finley, of  
Lauderdale county, are in Morgan  
county this week to assist in the or-  
ganization of a farm bureau and to  
aid particularly in the membership  
campaign. Each of the visitors is  
an active farmer and enthusiastic sup-  
porters of the farm bureau plan.

"We are glad to pass on the good  
work to the farmers of Morgan coun-  
ty," Mr. Finley said. "The job is well  
under way and we hope the people of  
Morgan will give the plan their sup-  
port." The farm bureau is a construc-  
tive proposition and it is not well for  
anyone to pass judgment on it until  
it is understood what the plan is and  
what its objects are.

According to Mr. Finley, the con-  
dition of the farmers of Lauderdale  
county has been improved 100 per  
cent since the bureau began opera-  
tion. "We know one another better,  
the merchants know the farmers and  
the farmers know the merchants."

During the past ten days meet-  
ings in the interest of the farm bu-  
reau have been held at many points  
in the county and according to those  
leading the movement, the meetings  
have laid the groundwork for comple-  
tion of organization of a bureau in this  
county. Farmers are said to be dis-  
playing much interest in the plan.

### Delay Valuation of Power Plants

(Montgomery Bureau Albany-  
Decatur Daily.)

MONTGOMERY, Ala., Nov. 29.—  
At the request of all persons interest-  
ed in the public service commission to-  
day announced that the hearing on  
the valuation of the property of the  
Alabama Power Company had been  
postponed from December 5 to a date  
yet to be set. The hearing will de-  
termine whether or not the commission  
can approve the valuation established  
by engineers appointed by the com-  
mission.

### Cotton Market Opens Quietly

(International News Service)

NEW YORK, Nov. 29.—The cotton  
market was quiet today with first  
prices two points net lower on May,  
and unchanged to 13 points higher on  
other months. There was little sup-  
port from local traders, New Orleans  
and Wall street interests and selling  
by Southern wire houses. After the  
start the list ruled a trifle easier with  
offerings absorbed by spot concerns.

### Store Operator is Beaten and Robbed

BIRMINGHAM, Nov. 29.—Sur-  
geons today hold out little hope for  
the recovery of J. T. Ary, manager of  
a grocery store, who was assaulted  
and robbed in his place of business  
here late last night. Ary was beaten  
into unconsciousness prior to their  
rifling the safe. He had not regained  
consciousness at noon.

### Legion Will Meet Wednesday Night

Members of the Morgan County  
Post of the American Legion will en-  
joy an oyster supper Wednesday night  
at 7:30 o'clock at the Palace Cafe, it  
was announced Tuesday. Several  
questions of importance to the con-  
duct of the local post will be discussed  
by the membership.

### ASPHALT COATING IS TO BE PLACED OVER HIGHWAY TO HARTSELLE SOON

One of Principal Roads in This  
Section Will be Im-  
proved

### BUILDING PROGRAM IN SPLENDID SHAPE

When Bond Issue is Re-Adopted  
Work May be Pushed  
Rapidly

The highway to Hartselle is to be  
given a coating of asphalt soon, it  
was stated here today by Mr. Good-  
rich, head of the Goodrich Construc-  
tion company which has been engaged  
in road building in North Alabama for  
several months.

The highway is one of the main  
arteries of trade in this section and  
is probably the heaviest traveled high-  
way in the Tennessee Valley. It has  
been removed for some time that a  
coating of asphalt would be put on the  
road as soon as conditions warranted.

For sometime Mr. Goodrich has  
been engaged in building a link of  
the road between here and Sheffield  
and that work is to be completed soon.

Plans have been drawn for construc-  
tion of practically all of the roads of  
North Alabama to be built with funds  
from the state bond issue, which will  
be matched by government appropri-  
ations. When the bond issue is finally  
adopted by the people of Alabama  
this winter, the state highway depart-  
ment will be in position to go forward  
with its construction program very  
rapidly.

### TURMOIL BREWING IN THE SENATE ON HARDING'S PLANS

(International News Service)

WASHINGTON, Nov. 29.—There  
were unmistakable indications today  
that the senate will become embroiled  
at the outset of the regular session  
of congress next week over President  
Harding's proposal for participation  
by the United States in an associa-  
tion to give permanency to the pres-  
ent conference in Washington.

Both Republican and Democratic  
senators now here are at cross pur-  
poses as to the meaning and purposes  
of the President's suggestions and  
some of them are expressing the hope  
he will clarify the situation by ex-  
plaining in his message to congress,  
at the opening of the regular session,  
just what he has in view.

While Senator Borah, Republican,  
of Idaho, is prepared to fight an as-  
sociation of nations as bitterly as he  
fought the League of Nations, other  
irreconcilables declined to be brought  
into the controversy until the Presi-  
dent has finally and definitely stated  
his position.

### Operators of Still Are Being Warned

(International News Service)

BIRMINGHAM, Nov. 29.—Deputy  
Sheriffs of Jefferson county are at  
a loss to understand the manner in  
which moonshiners are being warned  
of the approach of officers and make  
their escape before it is possible to  
apprehend them. During the past  
week 15 stills have been found in  
operation in Jefferson county, to-  
gether with 3,000 gallons of moon-  
shine. However no trace of any of  
the operators could be found when  
the officers appeared.

Sheriff Chris Hartsfield said today  
that he is of the opinion that the  
moonshiners have organized a secret  
service of their own to warn them of  
the approach of officers. The official  
declares it is unusual to raid such a  
large number of stills without catch-  
ing an operator about the still.

## Grief Overcomes World War Hero

Rejected Suitor Guards Love Nest  
While Bride and Hubby Honeymoon

(International News Service)  
SELMA, Nov. 29.—Mr. and Mrs.  
Charles King are speeding west  
today to spend a honeymoon in  
Texas, while Claude Williams, of  
Greenville, a traveling salesman,  
remains behind in Selma, the lone-  
ly tenant of a cozy furnished  
bungalow, which he says he had  
planned as a love nest for himself  
and the bride of yesterday. Mrs.  
King, who formerly was Miss  
Hazel Parker, of McWilliams,  
Ala., was to have been married to  
Williams yesterday, the latter de-  
clares. Friday Williams and his

bride-to-be went to Montgomery  
for a short visit. Williams re-  
turned to Selma Sunday and made  
final preparations for the mar-  
riage which he says was sched-  
uled to take place yesterday.

Instead of returning the bride-  
to-be sent Williams a telegram  
yesterday stating that she had  
just been married to Charles  
King, of Troy, Ala., and that she  
and her husband were preparing  
to depart for Texas on their  
honeymoon. The disappointed  
suitor has not announced what  
disposition he will make of the  
love nest.

### Child Marriages Now India's Greatest Evil, Future Parsees Priest Says

By MARGERY REX  
(Written for International News  
Service)

NEW YORK, Nov. 29.—Marriage  
at 10 years of age! Little lisp-  
ing girls and bashful boys exchange  
words that bind them together in a  
state of matrimony which they can-  
not understand.

Ten, 11, 12, 13—these are the years  
of brides in India whose parents still  
subscribe to the old idea of child  
marriages.

This is one of the greatest evils ex-  
isting in India today. Yet it had its  
origin in a desire only to protect wom-  
en. The observer is led to believe  
from reports that such an institution  
must have had its beginning in those  
dark days when men sought to shut  
away women from the world and place  
them in a safe if dubious position.

But one of the younger generation  
of old India, who holds to many an-  
cient ideas though he is most pro-  
gressive, explains the strange custom.

Jai Chureti-Pavry, son of a high  
priest of the Parsees, now a student  
at Columbia, discusses this problem of  
his country and declares it one of the  
greatest evils that burden India today.  
"Women were held in great esteem  
by the followers of Zoroaster, the Parsees  
of old. These people, from whom  
the modern Parsees are descended,  
flourished in Persia in the seventh  
century.

"The invasion of the Mohammedans  
caused a number of converts and  
weakening the strength of our proph-  
et's followers, made the position of  
our women a dangerous one.

"Parents shielded their daughters  
in their homes. The liberties and po-  
sition of woman immediately changed.

"But parents who got tired of this  
responsibility found a way to shift it.

"Marrying off very young girls be-  
came another measure of safeguard.  
Persecution of the Parsees continued  
by the greater number of Mohammed-  
ans and when these first pilgrims of  
Persia went into India they continued  
to protect their women.

"The child marriage was a concomi-  
tant evil of the invasion of Persia  
and the bitter persecution that fol-  
lowed.

"It is one of India's greatest social  
evils today.

"It should be wiped out and we  
should marry now as they do in your  
West, from a standpoint of suitability,  
mutual liking, and at a more mature  
age."

Young Mr. Pavry has chosen Colum-  
bia University as a place to prepare  
for his future problems. Only 21, he  
got his "A. B." at Bombay University,  
but left India to take his Master and  
Doctor degrees in America. He, too,  
pattering after his father, will become  
a High Priest of the Parsees, who are  
followers of the Prophet Zoroaster.

### RATE HEARING SET FOR JANUARY 9

MONTGOMERY, Ala., Nov. 29.—

Announcement was made by the pub-  
lic service commission today that the  
hearing of the case involving the com-  
mission's citation to all railroads to  
appear and show why there should not  
be a general revision of all freight  
tariffs on intrastate traffic will be set  
for January 9. It was postponed  
from the December meeting in order  
that all persons may have the benefit  
of information which is being devel-  
oped in a similar hearing before the  
Georgia railroad commission this  
month.

Representatives of the traffic bu-  
reaus are watching closely each de-  
velopment in the Georgia case as are  
attorneys for the railroads. This in-  
formation will be of great value to  
the public service commission of Ala-  
bama. In addition to this reason for  
postponing the case, the interstate  
commerce commission has announced  
that on December 14 it will begin a  
general hearing to determine whether  
or not reductions should be ordered  
on interstate tariffs. The state com-  
mission also desires the decision of the  
federal commission if possible as facts  
will be developed in the federal hear-  
ing which will have a bearing on the  
cases in Alabama.

Alabama members of the Southern  
Tariff League have received notice  
that the board of governors will meet  
in Atlanta December 2 and 3 for the  
purpose of preparing data which will  
be used in handling the various cases  
in the southeast involving proposed  
reductions in freight rates.

### LIVESTOCK JUDGING PROVES PROFITABLE

ROGERSVILLE, Ala., Nov. 29.—

That livestock judging is profitable  
and that it is practical when properly  
taught is now being demonstrated by  
Billy Goode, who is a senior in the  
Lauderdale county high school located  
here.

For three years Billy was a pig and  
corn club boy, and in 1920 he was one  
of the outstanding club members of  
the county, which entitled him to at-  
tend the club boy's encampment at  
Auburn in July of this year. While  
in Auburn he proved to be one of the  
four best judges of livestock, of the  
more than 200 boys present, and was  
therefore placed on the International  
Club Judging Team which represented  
Alabama at the Southeastern fair in  
Atlanta last month.

Prior to the contest Billy was thor-  
oughly trained in livestock judging  
by the state club leaders and Animal  
Husbandry professors at Auburn, and  
he has just returned from Nashville  
and other Tennessee points where he  
was sent to buy breeding hogs for  
the students of vocational agriculture  
of the high school, and also for Pro-  
fessor Bedingfield. As a result of his  
training, he is able to be of service  
to the people of this community as  
well as to the high school students.

STEVENSON ILL

ANNISTON, Ala., Nov. 29.—Horace  
L. Stevenson, three times mayor of  
Jacksonville, is reported critically ill  
at his home today. Mr. Stevenson  
has been in ill health several months.

### "I WON'T BE BACK" FINAL MESSAGE OF COL. WHITTLESEY

(International News Service)

NEW YORK, Nov. 29.—Intimate  
friends of Col. Charles Whittlesey,  
hero of the "Lost Battalion" in the  
world war were convinced today that  
the ceremony of the burial of the un-  
known soldier at Arlington on Ar-  
mistice Day was the culminating  
cause of his mysterious disappear-  
ance from the steamship Tolo, bound  
for Havana.

Col. Whittlesey, one of the out-  
standing heroes of the world war, was  
a pallbearer at that ceremony. "For  
the last two years there has scarcely  
been an hour when the grief and hor-  
ror of war have not been brought vi-  
vidly before him. The culmination  
came at the ceremony at Arlington,"  
said Charles W. Little, a law partner,  
this morning.

The only word conveyed by mes-  
sages from Captain Grant, of the  
vessel on which Col. Whittlesey left  
New York last Saturday, was that he  
was missing from his stateroom and  
had left papers and one note which  
said: "I will not be back."

Friends said they believed the war  
hero must have jumped overboard  
sometime Sunday afternoon.

### MANAGER OBTAINS OPTION ON A DATE FOR "ROBIN HOOD"

Manager H. B. Cagle, after much  
effort to convince the management of  
the DeKoven masteropera "Robin  
Hood" that there are many thousands  
of folks hereabouts who appreciate  
that class of musical entertainment,  
has secured an option on a date, and  
if sufficient interest is manifested the  
production will come here.

Accordingly a subscription sale will  
be opened at once and an opportunity  
for co-operation given to those inter-  
ested in bringing the celebrated opera  
here. Subscribers for seats will be  
given first choice, in advance of the  
regular sale, in case it comes.

"Robin Hood" is universally ac-  
claimed first place among American  
operatic compositions. Sung, spoken,  
enacted and enjoyed in plainest Eng-  
lish, it has brought joy to millions.  
The famous Bostonians in their day,  
with Jessie Bartlett Davis, Barnabee,  
McDonald and Frothingham gave over  
four thousand performances of it in  
America and England. The present  
revival began at the Park Theatre in  
New York and since last spring has  
included over one hundred cities. The  
producer, Ralph Dunbar, has given  
the DeKoven masterpiece a magnifi-  
cent setting and his enterprise has  
been rewarded by phenomenal attend-  
ance. More than a quarter of a mil-  
lion people in two hundred cities have  
paid admissions to hear Mr. Dunbar's  
company in the last few months. The  
Louisville Courier-Journal and Indi-  
anapolis News recently commended the  
production as the "best here in years."

Those interested should call on or  
phone the manager without delay.

### Injured Student Well Known Here

Hale Cullom, of Nashville, Yale stu-  
dent who was injured in the New  
Haven theatre fire, is not seriously  
hurt, according to information re-  
ceived by relatives here. Mr. Cullom  
is a nephew of Mayor and Mrs. E. C.  
Payne, of Albany, and has visited here  
often. He is a son of Dr. Cullom,  
prominent Nashville specialist.

### DECATUR SCHOOLS' FOOTBALL SQUAD BANQUETED, PLAN FOR NEXT SEASON

Good Fellowship and Large At-  
tendance Characterize First  
Annual Gathering

### EDWARD PRICE NAMED AS CAPTAIN FOR 1922

Superintendent W. W. Benson  
Presides and Pays Honor  
to the Team

Good fellowship, large attendance,  
wit and humor characterized the foot-  
ball banquet held at the Lyons hotel  
last night from 8:30 to 10:30. An in-  
formal organization of the Decatur  
high school alumni, together with De-  
caturn business men, gave the banquet  
in honor of the football team of the  
high school, which has just completed  
its first season. In addition to paying  
tribute to the team, one of the pur-  
poses of the gathering was to promote  
football and all clean sports. It was  
planned at the banquet to employ an  
all time coach for the team next year  
—a college man and an ex-football  
star. Edward Price, halfback on this  
year's team, was named captain for  
next year. Stress was laid on the  
excellent showing made by the team in  
the Thanksgiving game against the  
Albany high school, and the hope was  
expressed that the score would be re-  
versed next year. It was the ex-  
pressed wish on all sides that a simi-  
lar Thanksgiving game be played  
every year between the two schools.

On Monday night, next, the alumni  
of the high school will hold a special  
meeting to complete their organiza-  
tion. Prof. W. W. Benson, superin-  
tendent of the Decatur high school,  
presided as toastmaster. He called  
attention to the splendid record the  
football team made this year, and  
commended the sport for its man-  
developing ability. The first speaker  
to be introduced was Rev. G. B. De-  
venport, pastor of the First Methodist  
church. The fact was stressed that  
games taught team work and unself-  
ishness, in that they demonstrated  
the absolute necessity of co-operation.  
Rev. Davenport said that the indi-  
vidual work of "stars" was vanishing,  
to give place to the larger claims of  
team work.

Robert Banks, one of the former  
students of the high school, explained  
that the alumni were planning an or-  
ganization to back clean sport, and  
that by having a strong organization  
he thought the needed financial sup-  
port for athletics in the school could  
be obtained.

Prof. Norton, of the Florence nor-  
mal college, was the next speaker. He  
explained that athletics did not help  
just those who played on the teams,  
but the entire student body. The fol-  
lowing who are active in furthering  
the aims of good sport and more  
sport for the high school students  
next year also made addresses: John  
McGehee, graduate of Tennessee Uni-  
versity; C. W. Knight, Vanderbilt, and  
P. J. Brown, Auburn.

### Eleven Stills Are Taken in a Week

After a week of unusual activity  
sheriff's office officials, who have been  
working with state law enforcement  
officers, today checked up and found  
eleven stills were seized during the  
time and four arrests made in Mor-  
gan county. Several gallons of whis-  
key also were taken.

### NEGRO'S TRIAL OPENS (International News Service)

JASPER, Ala., Nov. 29.—The trial  
of Kirk Page, negro, charged jointly  
with 30 defendants with killing Leon  
M. Adler, general manager of the  
Corona Coal company, during the coal  
strike last year, opened here today.  
A hearing held several months ago  
resulted in a mistrial. The killing  
took place at Patton Junction during  
a battle between striking miners and  
deputy sheriffs.

### JAPAN'S EXPERTS STILL UNWILLING TO RENDER FINAL VERDICT ON PLAN

Public Opinion There Bitterly  
Opposes Proposal of Sec-  
retary Hughes

### BELIEF GENERAL THAT JAPANESE WILL YIELD

Commission Will Study Ques-  
tion of Territorial Ques-  
tion in China

(International News Service)  
WASHINGTON, Nov. 29.—The day  
of the final showdown on the accept-  
ance of the American naval program  
was postponed 24 hours today at the  
request of "one of the foreign dele-  
gations."

The committee of naval experts of  
the five great powers was scheduled  
to meet at 10 o'clock for a final ses-  
sion regarding the capital ship ratio  
of 5-5-3, proposed by Secretary of  
State Hughes. When the meeting  
hour arrived, however, it was an-  
nounced that one of the foreign pow-  
ers had requested a postponement of  
the session for 24 hours. No reason  
was advanced but it was understood  
Japan's experts were not yet ready  
to express a final opinion.

It was suggested in some quarters  
that communication with Tokio per-  
haps was responsible for the delay.  
Some concern was felt by members  
of the Japanese colony here over the  
state of public opinion in Japan, as  
reflected in dispatches received here  
by Japanese and by the American  
press.

Reports have been received of a  
number of public meetings in Japan  
at which the demand was made that  
Japan's delegates here take an un-  
yielding position for the 10-10-7 capi-  
tal ship ratio, instead of the 5-5-3  
plan proposed in the American pro-  
gram.

Today's delay, however, was not  
looked upon generally as reflecting in  
any way the ultimate result of the  
negotiations. The American position  
is adamant and the belief prevails that  
in the end Japan will accept the 60  
per cent ratio to which she has been  
assigned.

Resolutions looking to the eventual  
abandonment of extra-territoriality in  
China were adopted today by the com-  
mittee on foreign policies. The resolu-  
tion adopted, it is understood, pro-  
vides for the appointment of a com-  
mission to study the question of extra-  
territoriality in China with a view to  
gradual abolition of this practice.

The question of the removal of for-  
eign troops in China also was dis-  
cussed but it was understood no defi-  
nite action was taken.

### REBUTTAL BEGUN IN ARBUCKLE CASE

(International News Service)

SAN FRANCISCO, Nov. 29.—The  
state was confronted today with the  
task of pulling down an imposing  
structure of innocence, yesterday built  
up by counsel defending Roscoe Ar-  
buckle. In rebuttal, the state may at-  
tack only such evidence as was pre-  
sented by the defense.

Witnesses who testified for the de-  
fense, including Arbuckle, may be at-  
tacked in rebuttal as to truth and  
veracity. The state has 40 rebuttal  
witnesses, including Mrs. Catherine  
Fox, of Chicago. She will, it is un-  
derstood, refute testimony of defense  
witnesses to the effect that in her  
early days in Chicago, Virginia Rappe  
displayed a propensity to tear off her  
clothing when attacked by violent  
pain.

District Attorney Brady and his as-  
sistants were in no way dismayed over  
the showing made by Arbuckle on the  
stand. They put great importance on  
some of the statements drawn from  
Arbuckle by Assistant District At-  
torney Leo Friedman.

Arguments are expected to consume  
two days and a verdict is not antici-  
pated before Saturday.

WHAT WILL BE AMERICA'S  
PLAN FOR WORLD PEACE?

America has led the world for naval disarmament, will she do any thing to curb militarism on land? It is very probable that Secretary Hughes will present some international plan for doing away with the war menace, outside of recommending a naval holiday of 10 years. Hughes was originally a league of nations advocate. He is a lawyer, and he knows that a mere association of nations, with no binding agreements mean nothing more than a gentlemen's agreement. The world is sick and tired of "scraps of paper." The people want some kind of a set of laws passed by the nations that will outlaw war. It is claimed now that Mr. Hughes plans to accomplish universal peace, by a series of yearly conferences between the nations, and each year it is to be purely voluntarily whether or not the nations send delegates or at all. Mr. Hughes knows that such an arrangement will mean little or much and that it may mean nothing. He must also know that the element of time is a valuable one just now. In Europe nation after nation is armed to the teeth. No confidence exists over there. Russia, being bankrupt in every way, is desperate and ready for any kind of a change. The Germans, owing to the plight being the war put them in, have been trying to shirk their national responsibilities for a number of years, may start a revolution for the purpose of repudiating her debts any time. It is believed that what is called the "little entente" is the only bar to Hungary making war on the new state of Czechoslovakia, and ever since the world war Italy and Jugoslavia have been on the verge of blood shed. Some plan must be adopted to stabilize world peace. Mr. Hughes has said as much time and time again. Will he offer some plan. We have already set a good example by practically disarming ourselves, but until we can disarm the other nations of the world we are not safe from war or its blighting effects. It seems a pity that the Harding administration cannot have the courage to come out boldly, and ask for a place in the league of nations, and for the privilege of signing a solemn covenant to help keep the peace of the world. It is significant that some of the most conservative leaders in all lines of endeavor in America are demanding that something definite and lasting be done to insure the whole world against another war.

## DREAMERS AND SERVICE

The Great Humanitarian was a dreamer. He dreamed of a lost world and sealed their redemption with his own blood. Paul was a dreamer, of conquest at first, until the light broke about him, and then his dream changed, and he dreamed of service and caught the inspiration that has made his name famous in Bible history. Moses was a dreamer, as he led the children of Israel out of bondage across the Red Sea, and stood viewing the promised land, he dreamed of a service that would echo down the ages and God loved him and buried him with his own hands on the mountain of Moab. Abraham was a dreamer, as he trod the rough slope of that mountain, leading his own offspring by his side to offer as a sacrifice, he dreamed of a service of devotion to his maker fraught with the greatest possibilities. Stephen, the martyr was a dreamer, and as he was chained to the stake to give his life for a cause, he caught the vision of his dream that through sacrifice he would blaze away for those who were to follow him.

John was a dreamer, and on the Isle of Patmos he caught the vision of his life dream and he saw the heavenly world with all its beauty, and left a heritage that has cheered and brought hope and comfort to a world as it comes thundering down the ages.

Woodrow Wilson was a dreamer, and he caught the inspiration of all the peoples of earth living in peace, and set the pace of a great power absolutely opposed to conquest and willing to serve that others might be delivered from bondage. A martyr as well, for in the promulgation of these ideas, he wrecked his health seeking to impress them upon a maddened world.

We are dreamers, no matter in what sphere of activity we move, and dream of better things when peace rules the world and the banner of right waves over every nation of earth.

They who conceive the idea of institutions, educational and benevolent, saw in their mind's eye these blessings rise to be of service to those who came on, and because they dreamed of these things, they are made possible in the material possession of them today.

## THE "SOFT TIMES" GONE

We're a little bit like spoiled children today. It isn't so much the stringency of the present that we detest; it's rather that yesterday's easy times are gone! We found it so delightful to travel ahead at first, second and third and it's both disconcerting and provoking to find out that life has a reverse speed as well.

The slopes of life are always with us. Very seldom indeed do we climb to a summit to remain there. After enjoying the view and congratulating ourselves on the success of the climb we're quite sure to take the descent, are we not? A hilltop is a place for inspiration, for refreshing, but seldom a place for continued staying. We could never progress, did we stay—we are already at the top.

Even decent may mean progress if we go down rightly. Digging our heels into the earth, protesting and scolding at every step, we shall find the going down double difficult. Accepting the situation, going down as easily as may be, with

our eyes fixed on other hilltops, we shall not be so much mind the road. There are pleasures in the valleys also.

We've only just so much nerve force and strength at our command. That which we spend in worry and rebellion, and nothing takes more out of us than do these, we shall not have for living. What we cannot help, why worry about? That which we can change, why not use the force and effort for changing?

Foolish optimism? Impossible vamping? By no means. Merely plain logic and common sense. Try it and see!

Then you won't be ashamed to look at yourself in the glass. There's an old saw what says, "Every dog has his day." Adjust your spectacles and read this little story from Indianapolis:

The time was Saturday, 5:30 p. m. The place, a local movie house. The girl, a large robust middle aged woman.

Rushing up to one of the ushers in the foyer, she excitedly cried: "Say, boy, I left my husband in here while I was shopping. Our car leaves in five minutes and he ain't out here. Don't want to buy a ticket; how can I get him?"

"We aren't allowed to page anyone," replied the usher, "but if you describe him perhaps I can find him."

The woman apparently did not hear a word he said.

"Do you mind if I whistle for him?" she asked.

Thinking she was only joking, he said: "Go to it."

Immediately a shrill and weird whistle startled the quiet audience.

A meek little man sitting well toward the front jumped up as though shot, halted up the aisle, appeared in the foyer and meekly ran in the wake of the robust woman who was rapidly making tracks for the car line.

Musicians find the drum an unsatisfactory instrument for lack of harmonic overtones. From India comes the description of a drum, the parchment head of which is loaded with an adherent composition containing finely divided iron. Such composition lies in a central circle. ## AMBITION PARTS THE WAYS OF FILM STAR AND HER HUSBAND

Constance  
Talmadge  
and her  
husband

That Constance Talmadge, film star, has been separated for several weeks from her wealthy husband, John Piagalon, was admitted by her in Los Angeles. The trouble culminated a month ago in this city when she flatly refused to accede to her husband's demand that she give up the screen. That ended the romance that ten months ago united in marriage the youngest of the three Talmadge sisters to the wealthy Greek tobacco importer, Miss Talmadge made this statement: "There is no other man or woman between us. We quietly arranged our parting. We just couldn't get along. My husband is not of the theatre world. He could not understand my going away off to California to appear in the pictures. Perhaps he could not understand because he is a foreigner and I am an American. Besides, as I have discovered, our temperaments are entirely different. He wanted me to give up my movie career. But I cherish that career as I do life itself. I wanted me to give it up and merge my individuality with his. Of course I refused." Miss Talmadge is at the home of her sister, Natalie, Mrs. Buster Keaton, in Los Angeles.

## YOUR HEALTH

## Why You Shouldn't Worry About High Blood-Pressure

By ROYAL S. COPELAND, M. D.  
Commissioner of Health, New York City

**A** PROMINENT newspaper man writes: "What is the cure for high blood-pressure?" It is unfortunate that there is a widespread fear of high blood-pressure. So much has been said about it that most persons have come to believe it is a life-shortening and disease-producing condition.

Hardening of the arteries is one of the most important causes for increased blood-pressure. A great doctor has said that it is white hair, with which—but not because of which—we die.

If you will remember this, you will have no terror of hardened arteries and high blood-pressure. They are symptoms of advancing years, just as gray hair is.

It is said a man is as old as his arteries. As we grow old our blood-vessels get harder. We are not unlike vegetables, after all; we get tough as we grow old.

Of course, hardened arteries and high blood-pressure may become the cause of disease, and more or less serious trouble. It depends on what part of the body becomes affected.

If the blood-vessels of the brain, heart or kidneys become badly affected, there may be trouble unless the victim is very careful. Undoubtedly, hardening of the vessel walls in the brain is responsible for many cases of rupture, causing apoplexy or paralysis.

Nature is kind. She usually gives warning of the weakness by sending a mild attack or two before there is any real menace to life or consciousness.

Many a person has had hardened arteries and high blood-pressure for 10 years and never suffered a single moment because of them.

Remember that these troubles are like gray hairs, and when once established are as little influenced by any kind of treatment.

It is unquestionable that diet has its effect upon the production of hardened arteries. Great eaters of meat and other food are apt to have trouble of this sort. This is particularly true if constipation exists.

If a careful physical examination shows that the blood-vessels of the brain, heart or kidneys are hardened and the blood-pressure is unduly high, it is well so to live that there will be no danger of sudden strain upon the vessels which might break. Under such circumstances, gentle exercise, abstinence from anger and strong emotions, temperance in eating and drinking, worry, indigestion, fatigue, worry, and loss of sleep are to be avoided.

Even if your blood-pressure is high and your arteries are hard, do not give up your work, whatever it is. Go for ward, confident that sensible living will do you no harm. No man need worry a moment if his manner of living is properly regulated.

## Back Bad Today?

Backache is usually kidney-ache and makes you dour, nervous and tired. Use Doan's Kidney Pills for weak kidneys—the remedy recommended by your friends and neighbors. Ask your neighbors.

R. W. Dodson, 1114 Third Ave., S., Albany, says: "I have used Doan's Kidney Pills on several occasions and they have always brought relief. When I first began using Doan's, I was in pretty bad shape with my back. I met with an accident on a street car some years ago and I blame this for bringing on the trouble. Whenever I would stoop over, I couldn't straighten up without taking hold of something and I often got dizzy and black spots would flash before my eyes. My kidneys were apparently bad. I was in pretty bad shape. I got Doan's Kidney Pills and Doan's Backache Remedy, and they have relieved me of these troubles. I have frequently recommended Doan's since."

## The Greatest Physician of All Is Pure Blood

When the Foods You Eat No Longer Seem to Do You Any Good—Look For the Danger Signals Which Denote Waste Products In The Blood.

How to Clear Your Blood of Waste Products.

The blood is the means by which all the tissues of the body are directly or indirectly nourished. You will at once realize that unless the blood is pure, some part of the body will soon become diseased.

Waste products in the blood are an element of danger. Ninety per cent of the people "below par" are suffering with waste products in the blood.

When your blood is loaded with waste products, you become weak, nervous, irritable and easily upset.

Other symptoms are pimples, boils, or some other skin disorder; loss of weight; and probably rheumatism.

Your blood is your fountain source of energy—therefore keep your blood rich and pure.

For over 50 years, thousands and thousands of men and women have relied on S. S. S. to clear their blood of waste products.

S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality.

The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for keeping your blood in good condition.

Get S. S. S. at your druggist. Beware of substitutes. Write Chief Medical Director, Swift Specific Co., D-719 S. S. S. Laboratory, Atlanta, Ga. for special medical advice (without charge). He is helping people every day to regain their health and strength. Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold by all drug stores.

## 500,000 BUSHELS POTATOES STORED

AUBURN, Ala., Nov. 29—Considerably more than a half million bushels of sweet potatoes are now in storage in Alabama in modern houses with a capacity of 2,000 bushels or over, according to a partial list of these houses prepared by R. G. Briggs, sweet potato specialist for the extension service.

This list carries no comment except to explain that it is only a partial list and indicates the capacity of each house, and also the total capacity in the different counties. According to it, Escambia county is far in the lead of all other Alabama counties, having seven houses with a total capacity of 88,000 bushels. Wilcox county is second, having three houses with a total capacity of 45,000 bushels.

The largest house in the state is owned by L. M. Finlay, of Pollard, with a capacity of 35,000 bushels. John Blake, of Sema, and F. W. Carr, of Bridgeport, are tied for the second largest house each having one with a 30,000 bushel capacity.

It is evident that the complete list of these curing houses would show many thousands of bushels more in storage, and in view of the fact that this work was taken up by the Alabama extension service only a few years ago, it shows conclusively that sweet potatoes possess a great potential possibility for the farmers of Alabama, who, it now seems, will eventually find it necessary to join with the sweet potato growers of other states in forming a big commodity organization similar to the Texas Farm Bureau cotton marketing association, and thereby greatly improve the production and merchandising of sweet potatoes.

## NEWS OF HARTSELLE

HARTSELLE, Ala., Nov. 29—A deal was consummated Saturday by County Superintendent E. L. Hays, whereby the ball park property passed to the Morgan county high school. The property will be improved before another season, and will be used for an athletic field. The property lies just

east of the school building and is a valuable acquisition.

Rev. B. M. Howell preached his initial sermons at the Methodist church Sunday morning and evening to large congregations. He comes from Stevenson to this place, and his first ser-

vice made a great impression on the large congregations that heard him. A record breaking attendance was noted at the Methodist Sunday school last Sunday, there being 250 present.

The armory to house the cavalry troop located here is nearing completion. It is being erected by Capt. R. A. Burleson, and is situated east of the railroad north of Main street.

Wagons are busy hauling slag to the pike east of town, also on the highway between this place and Falkville.

County Agent W. G. Johnston expresses himself as being greatly

pleased with the progress of the farm bureau organization he has met with during the past few days. Late meetings in behalf of this project have been held at Falkville, Danville, Neel, Hartselle and Albany-Decatur. At each place considerable enthusiasm has been shown in their favor, it is said.

## A CHRISTMAS SONG

Down in the toe of every Christmas stocking, waiting to pop out with the ruddy red apple and the odd shaped bundle (which one always finds in the toe of any Christmas stocking, you know) is a song. It is the song that came into the world to greet the Three Wise Men—the song Tiny Tim heard—the song you will hear, too, if you put the inner ears of your heart in tune. For it is the Christmas song—it's message is "Peace on Earth, Good Will Toward Men." All the year it hums its rhythm into the warp and woof of living—but at Christmas time it exultantly flings its melody broadcast into the world. So, hidden away in the toe of your Christmas stocking there is this song. So, hold it fast—this lovable, beautiful, livable Christmas Song!

## YEAST FINE —BUT BEST WITH IRON

To Quickly Build Weight, Increase Appetite, and Banish Skin Troubles Take "Ironized Yeast" Tablets.

While many fine results have been obtained from eating yeast for health, thousands now know that far better and quicker results are secured when yeast is taken with organic iron, as is found in Ironized Yeast. Very often this wonderfully effective tonic brings results in half the usual time! This is because the iron in Ironized Yeast enriches and strengthens the blood, so that it can more quickly carry the vitamins to the wasted and worn-out tissues.

If you want to round out your body with good solid flesh, rebuild your shattered nerves, increase your strength, energy and endurance so that you can tackle hard work and enjoy it—just take Ironized Yeast for a few days and watch the improvement in yourself.

Ironized Yeast is pleasant to take, will not upset the stomach, and is much more economical than common yeast. Each package contains 60 individually wrapped tablets (10 to 15 days' treatment) and costs only \$1.00. Sold at all druggists. Don't accept substitutes! Special directions for children. Made by the Ironized Yeast Company, Atlanta, Ga. Sold and highly recommended by Albany Drug Co.—adv.

"A NIGHT IN HONOLULU"  
PRINCESS FRIDAY NIGHT

The scenes of this latest play of Hawaiian life are laid on the Island of Hawaii. There are three acts. The action takes place in a small village on the bay of Hilo, not far from the volcano Kilauea. It concerns an episode in the life of a beautiful Hawaiian voodoo woman, an Englishman and their child. The play reveals the story of a night long past as one picture—a terrific storm raging on the outside of a hut. The voodoo woman amid the chants and weird music of her native companions is heard praying for the recovery of her infant who lies near death and for the safe return of her lover, who has gone to Hilo. An old Sorcerer enters and tells her the lover will never return to her; that he has gone to Hilo to wait the arrival of the boat from England, which will bring him his white wife and baby. He swears by the great goddess Pele that his information is correct, shows her from the window the English vessel driven far out of her course by the storm and struggling in the breakers sending out calls for help. The natives in their superstitious fears do not dare aid the ill-fated vessel and it is wrecked, washing ashore many of the passengers, the majority of whom were drowned; among these is the white wife of the Englishman, but the child survives. The Hawaiian wife substitutes the white child for her own, rears her, and in the following two acts, which are supposed to take place seventeen years later, the child is seen as the girl "Kalamana" favored by the gods and the idol of the natives.

"PLAYTHINGS OF DESTINY"  
AT PRINCESS TOMORROW

Herbert Rawlinson and Walter McGrail, as well as little Richard Hendrick, are in the cast supporting Anita Stewart in "Playthings of Destiny," which comes to the Princess Theatre tomorrow and Thursday. Rawlinson has the role of Geoffrey Arnold, afterward the Earl of Stanhope, while McGrail depicts the part of Herbert Randolph, who attains the position of Governor-General of Jamaica at the conclusion of the story. Rawlinson is the first and only true love of Julie Laneau, the character portrayed by Miss Stewart. They marry, but an unscrupulous woman, aided by a shyster lawyer, convinces Julie that she is but a plaything of Geoffrey's, that he had a legal wife at the time he married her. She leaves him, and a northern blizzard raging at the time she deserts his cabin convinces Geoffrey she has perished.

Randolph finds Julie unconscious in the snow and takes her to his cabin. They are snowbound there for six weeks, a situation which makes Geoffrey's wide search for her futile. Randolph falls in love with her, and Julie to protect the good name of her baby consents to marry him.

When Julie meets Geoffrey again he holds Randolph's happiness and ambition entirely within his power. The climax develops rapidly from this point, and it is one that gives a most satisfactory ending to a most interesting and dramatic story.

## FLYING CIRCUS AT 1:30 SUNDAY, LOCAL BOY WILL APPEAR

The Glenn E. Messer Flying Circus will give their exhibition of death-defying stunts here Sunday afternoon at 1:30 o'clock under auspices of the American Legion. The planes which will be used will arrive here Thursday afternoon from Florence.

Many death-defying feats are on the program for Sunday afternoon's entertainment. Mr. Messer has many tricks for the local folks in his challenge wing-walking exhibition. Such things as standing on his head on the wing of a speeding aeroplane and hanging by his teeth, as well as standing upright on the top wing while the plane loops the loop doesn't seem to bother him. He offers \$1,000 to anyone who will duplicate his feats in the air, which takes place just above the flying field within 100 feet of the ground. He will also leap from his aeroplane while 2,000 feet from the ground, depending on his parachute to bring him safely back to earth. Mr. Messer has made pictures for both the Pathe Weekly and the Ruth Roland Production company.

Another real thriller for Sunday afternoon will be a plane to plane change. Using nothing but his hands, Lieut. Royce will change from one plane to another while passing through the air at the rate of 100 miles per hour. He stands on the top wing of his aeroplane while waiting for the passing plane to come close enough for him to reach. Then grasping the lower wing of the passing plane he swings himself to safety. He uses no rope or any other mechanical device in making this change.

These are but a few of the thrillers in store for those witnessing the exhibition. The Messer Flying Circus is the largest organization of its kind in the county today and the people of the Twin Cities are very fortunate to be able to witness these daredevils in action. To demonstrate the strength of his teeth, Mr. Messer will allow himself to be pulled up to the tallest building in the city while hanging by his teeth. This feat will be performed Friday afternoon at 4 o'clock and the building used will probably be the Chamber of Commerce.

An added attraction will be the first local appearance of Captain Floyd Worley, of the Twin Cities, who will appear in a program of wing-walking and other aerial stunts.

"Code of Hammurabi."  
The "Code of Hammurabi," a set of laws made by King Hammurabi of Babylon, 1858-1850 B. C., was found in 1901 A. D. in a stone eight feet high. The code contains 280 sections dealing with all sorts of questions. The law of bribery was stated thus: "If a man bear witness in a case for gain or money he shall himself bear the penalty imposed in the case." Breaking into mud brick houses was punishable by death. The old law of "an eye for an eye and a tooth for a tooth" was enunciated by him long before the same law was stated by the Hebrews in the old Mosiac law.

## One Man Given Life in the Pen and Death Too

(Montgomery Bureau, Albany-  
Decatur Daily.)

MONTGOMERY, Ala., Nov. 20—

If you were brought into court and one jury gave you death and another jury gave you life don't you think you would be the victim of a cruel paradox? This is just the thing which happened to Emory Smith, of Jefferson county and his attorneys will come to the supreme court Thursday with appeals in the two cases.

Emory was convicted of highway robbery in two cases. One jury decided that he should spend the remainder of his days in the penitentiary while the other decreed that he should hang by the neck until dead. The consensus of opinion is that both sentences cannot be executed and it will be up to the supreme court to decide which one should be carried out. If Emory had his choice he probably would select the life sentence or he

might decide to spend the remainder of his normal days in the pen and accept the death sentence as the last thing for him on earth.

Anyway, the problem has reached the capitol and the supreme court must solve it. In the meantime, Smith's attorneys are doing everything in their power to obtain reversals of both judgments.

### The U. S. ROYAL CORD TIRE

Unquestionably the outstanding merchandising success of the year—both in the eyes of the trade and of the car-owner. When the U. S. books close for 1921, they will show U. S. Royal Cord sales nearly doubled over 1920.

What U. S. Tires say and do commands a greater audience than any other line of tires in the world.

## Where is the tire dealer headed for in 1922

ALONG about this time of the year the tire-dealer is a much called upon man. Probably a dozen different "Agencies" for a dozen different tires are hopefully spread before him.

But when he gets off by himself and starts to think he finds out that most so-called Agency Franchises are hardly more than permission to invest his money in this brand or that brand at his own risk.

Consider now—not what is said in behalf of the U. S. Tire Sales and Service Agreement—but what it does.

Consider general conditions for the past year. And note everywhere that U. S. Tire dealers have been the least affected of all.

Observe how generally the U. S. Tire dealer is respected. Not alone by

the public but by his local competitors.

The U. S. Tire dealer always knows where he is at. Right now—or in making his plans for 1922.

He can always put his hands on the U. S. consistent merchandising policy.

Where the U. S. Sales Franchise separates from the rest and asserts its prerogatives are in these things—

It brings to the dealer's store the greatest and most loyal tire-audience anywhere.

It supports the dealer with the most constructive and courageous publicly expressed policies today.

It carries the prestige of the U. S. Royal Cord Tire and the "USCO" Tread.

It is the most sought after Franchise in the whole tire trade.

U. S. dealers will be the ranking tire-merchants of 1922. Not only in profits returned, but in local reputation as business citizens.
